A GAIN OF 400

In the daily circulation of the Times since Jan. 1st is something no other Washington county daily can show.

The circulation statements of the Times can always be verified by anyone who so wishes. Press room, circulation books, paper bills and all that pertains to the circulation of the Times are open to the inspection of all. Is there any other Washington county daily that will show up in like manner?

Formal peace between Great Britain and the infant American republic was declared 120 years ago today. The rise of the United States since that day has been most remarkable.

Time limit is about the only thing that is able to win against the Reliance and, according to the number of wins, the latter is beaten to a standstill. Fortunately, however, the American yacht is racing against wind and sails and not against time.

The insane man who claimed he was to be married to Alice Roosevelt, the daughter of the president, was not the only deluded mortal to think the same thing. Leastwise the reported engagements to Miss Roosevelt would lead one to think there were others.

The Lyndonville man who yesterday celebrated his 100th birthday anniversary, left off drinking intoxicants when he was still young—or at about the time Vermont's prohibitory law went into effect. But it was personal prohibition and not state prohibition that caused him to leave the habit.

It is not entirely smooth sailing after an individual gets a license to sell intoxicating liquors. The New Hampshire board of license commissioners has just revoked four licenses, one at Nashua and three in Hampton. Such action is a gentle reminder that the licensee is responsible to others than himself.

Although five arrests have been made at Beirut, Turkey on account of the recent shooting at the United States vice-consul, it is still claimed by the Turks that no attempt was made on the life of the American official. They declare that the shooting was only the accompaniment of a marriage celebration and that the vice-consul happened along at an inopportune time. The Turks appear to have distorted views of marriage celebrations, and there are not a few people who believe that another thing has been distorted—namely, the truth.

Even if the Britishers cannot win a yacht race against us, a British nobleman has just succeeded in winning a young American heiress. That's a game in which our British cousins appear to play a pretty strong hand. But then, some American girls are more easily "lured" than the American's cup, which may account for the numerous wins which are credited to the nobleman. However there are other American girls who are not carried away with the prospects of a title loaded down with debts. The latter show a level-headedness worthy of an American.

ABOUT THE STATE.

Items of Interest Gleaned From Our Exchanges.

Congressman D. J. Foster will speak at the Middlebury fair Thursday.

William McDonald, of Shaftsbury, has in his dooryard a northern spy apple tree, one side of which is in full bloom, the other side filled with apples nearly grown.

"Dick Nelson" the stallion owned by Neil James of Swanton broke his leg while being driven an exhibition mile on the fair grounds at Sheldon yesterday and will probably be shot.

Allen Burroughs of Vergennes, recently dug fifty-three and one-half bushels of potatoes from a strip of land ten and one-half rods long and three rods wide. The potatoes were an early variety known as Irish cobbles.

Corn is practically a total failure in Addison county, apples are in about the same list, while the hay crop is far in excess of what was anticipated early in the season. The grain crop is exceedingly heavy, while potatoes will yield only an average crop.

Alice Meschery, aged 20 years, of Bennington is dead as the result of blood poisoning. She went to Bennington with her parents from Lawrence, Mass., about ten years ago. While visiting at Lawrence, she had an abscessed tooth lanced and from this the blood poisoning developed.

The canning of beans is still being carried on at the St. Albans canning factory and it is anticipated that about 100,000 cans will be put up this season. As soon as the bean season closes the factory will take up the canning of apples and it is anticipated that about 60,000 gallons will be canned.

Rev. John Cameron of Hampton, Mass., has accepted a call to the pastorate of the Baptist church in St. Albans made vacant by the resignation of Rev. Dr. W. H. H. Avery. The new pastor was educated at Brown university, Newton Theological institution, and took a post graduate course at Yale university.

Hamilton, O., Sept. 3.—Judge Folsen refused a new trial for Alfred A. Knapp, the self confessed murderer of two of his wives and three other victims. The court fixed Dec. 12 for the execution.
